Invitation to INSECT 2026

11.-12. November 2026 in Magdeburg

Magdeburg – The Otto City

- Located in the east of Germany on the Elbe river, capital of the German state Saxony–Anhalt
- Otto the Great made Magdeburg his capital and ruled his Holy Roman Empire from Magdeburg over 1000 years ago
- Otto von Guericke was mayor of Magdeburg and revolutionized science in the 17th century
- Important sights:
Cathedral, Green Citadel,
Millennium Tower, Old Market,
Gruson Greenhouses,
Rotehorn City Park, ...

Mechanical Engineering

Process & Systems Engineering

Electrical Engineering and Information Technology

Engineering campus:

- Bringing together the engineering faculties
- Pooling resources
- Simplifying workflows
- Inspiring new students
- Generating innovative projects

Otto von Guericke University

- 12,600 students, including 1,500 in medicine
- Around 2,000 graduates leave the university annually
- Around 250 doctorates are completed annually
- Around 200 professors are responsible for research and teaching

Faculty of Mechanical Engineering

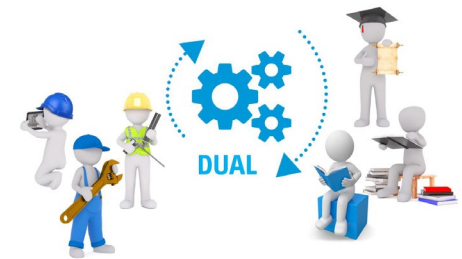

1300 Students

2 Institutes

19 Professors

200 Employees

Study with industry

Study and Start-up

Faculty of Mechanical Engineering

Research priorities and collaborations with non-university research institutes

INSECT 2026

International Symposium on Electrochemical Machining Technology

- When: 11.–12. November 2026 (Wednesday and Thursday)
- Where: Otto von Guericke University Magdeburg
- Format: oral presentations, lab tour, networking in tea and coffee breaks as well as at the conference dinner, open access proceedings with DOI
